Hello to all,

I hope this finds you well with a summer's worth of rides (and stories). Still an important time in the "legislative arena". I truly hope you find the time to research your favorite candidates and support them. The list on the following pages will (try to) assist you, regarding responses and prior voting history from the candidates in several issues that were of importance to FORR. As always, please feel free to contact me

with any questions/comments/concerns. Happy hunting!

Best Regards,

Katherine Cashell-Legislative Coordinator

Ahhhh the fall...

By the time you read this Homecoming will be history and Octoberfest will be HERE! Just can't wait - but I'll have to! All the plans are geeing in order and things are looking GOOD. It's a real nice place, and I look forward to seeing many of you there. A big thank you from District 4 for sponsoring Octoberfest as there are soooooo few this year.

The past meeting was at Della's. Very nice place, and great company. It was a great time! BBQ, swimming, oh, and the meeting of course! Our meetings are going to change up a bit - we are gong to be getting together about 5 pm on Saturdays. After the meetings we might all go out for a ride or something. Come and check it out. Reminders will be sent out or call the phone number above for more info.

We still have OX patches and Larry Barker patches if you are in need of any. Contact Mark at 816-690-4200 and he'll help you out.

Our FORR Local elections are coming up so get some ideas on who you want to lead us all through 2011. Some of us are getting a bit tired and would appreciate some new fresh faces to replace ours.... The State is also having some very important elections coming up as well. If you aren't registered at this point I'm not sure if it can be done in time, so you might want to contact your city hall if your interested in putting your two cents in! This can and will be very important for all of us who live here in Missouri.

Tonite it is expected to be around 57 degrees - very coooooo!

Well, still have more painting to do, so I'd better get to it - have a good one, then have another!

See ya all at Octoberfest!

Greetings Local 7

Well Sturgis has come & gone with Don, Beaver, Richard L. & his son having gone this year. They went a week early to beat the crowd. They made it in time for the rain and hail. Lucky for them they found some cheap tents. Beaver said they held water real well. Don bought a new shirt that was newsworthy enough for his picture to be taken and put in a newspaper. Later in August the Laclede county Juvenile diabetes Run was held with Local 7 members Charlie, Stanley B., Richard S., Beaver, Guy and myself making the ride. It was a hot one but I'll still take it over cold anytime. The following weekend the

American Cancer society Relay for Life held their yearly run with Guy, Beaver, Richard S., Charlie, Stanley, Donnie and myself making the ride. I hear Don & Wendy bought a buggy for their Clydedales. I guess we know who'll be bringing the beer to the next Local 7 party. I also hear Donnie has been jumping out of airplanes again. Working at the Lebanon Cycle Center must cause a fella to do crazy things, the time before Stanley jumped with him... Well by the time you read this letter Homecoming will be over and Charlie will be having surgery. He held off on surgery so he would be able to make Homecoming. Happy Fall Local 8!!!

Ahh here we are again, enjoying this wonderful time of year!! The kids are back in school, Mother Nature has finally settled down and cooled off and the leaves are turning the beautiful colors... Some people love it, personally I'd take the hot days of summer back any day. It is fabulous though to get out on those back country roads and take in the beauty of the world & enjoy the crisp air refreshing your soul. Just remember when enjoying the last good month of riding weather this year, to watch out for road hazards.

I'd like to say a big WELCOME aboard the Freedom Train to our new members: Tim Donelson, Shelly Cleveland, & Laura Livingston!! I'd like to say thanks for rejoining to: Tony Livingston, Thomas James, Bill Cullen and a Congrats to our new LIFE member Kevin Callihan!! Thanks for your years of support to Local 8!

Since our meeting isn't for a week, I don't have a lot to report. A few dates to mark on your calendar - October 23 we are working

on an event at Rumors to raise monies for our Toy Fund, more details on that will come later. November 7 will be our annual Toy Run! Sometime in October the ladies of the local are planning a garage sale (details to come).

Our officer elections will be in November also. A couple key officers have informed the local they do not plan on running for office next year. If you know of any one that would be interested please get with one of the officers or members.

After working on our membership roster this month, I've notice a real decline in membership. If you have any suggestions on what we can do as a local to increase interest please email me at gely603@hotmail.com. Motorcycle safety, education and brotherhood starts with us first.

With that I wish you a fabulous Autumn!

a long way. Even this Organization/Local needs a little care now and then, working together to keep it in good shape comes from within. Those who care about what we do, will do what's needed to protect and maintain what we have built. and in return it will be here to protect us for years to come.

Sometimes, there are some misunderstandings, and that's bound to happen. with a little effort we can resolve any problems that arise. Taking the time to listen and communicate with other members will help resolve all problems. No member is perfect, and not expected to be. It is this, that makes us who we are. This organization is open to everybody, Rider or Not, Asian or American, it doesn't matter.. anyone that has an interest in the rights of motorcyclists is welcomed. "Perfect People Need Not Apply."

A few events are coming around the bend, Statewide poker run, Toy Runs, and any events our brothers have out there, be sure to support our fellow Bikers in the area, and in turn they will support us and our efforts. this is how brotherhood works. whatever the cause, rhyme, or reason the other organizations in the area know and can expect the support from L11.

For the Local level, elections are coming up at the November meeting, If you are interested in being an Officer, this is your chance to speak up, step up, and make this local the best it has ever been. Being an Officer has some responsibility, I would like to see some officers who step up into the position and work together to make the local even better, it takes not only the members to make the local grow, but the officers who carry out the duties of the office.. respectfully. If you cannot step up and handle the responsibility then perhaps you shouldn't be a officer, taking the office and doing nothing will not benefit the local as a whole.

It will not be long and we will be starting to plan the Southwest Missouri Rally 2011, so start thinking about ideas to make this the best rally this area has seen.. would love to hear some input, and no idea is a bad, some are unrefined, but unrefined ideas lead to excellent plans..

This local is on the right path, I am proud of how we conduct ourselves, how we work together, how we reach out to other organizations spreading brotherhood, and meeting our commitment to our duties in Jeff city. If you are a member and are not around, then I must tell you.. you are passing up a good experience with L11, the best people I know are members of this Local.. a tight family working together to accomplish many tasks.. and I am telling you.. I wouldn't give it up for

anything.

And if you are not L11, you have no idea what you are missing...

Til next time, stay warm, ride it safe, and wipe it down now and then..

Give a little Love,

Greetings again to everyone out in FORR-land from your friends on the banks of the muddy MO river in Glasgow. My two favorite seasons have arrived: Fall riding season and football season. October also brings one of my favorite events, district 4 Octoberfest.

We had a good meeting on Aug. 26th, with 13 members and 1 guest present. Mike called the meeting to order at 7:05 and the minutes were approved as read. Courtney gave the treasury report and thanked everyone for the great job they did at the Firecracker Classic. The balance in the checking account stands at \$6,459.

We didn't do as well financially this year at the Firecracker Classic. We took in \$6,500 and had \$5,900 in expenses, for a profit of \$600. Our sponsorship money was down by \$2,000. Our total this year was \$3,600. 7 day passes were sold on Friday and

52 on Saturday. We are debating whether or not to take checks next year.

Lots of our members have not renewed. Smokey reminded everyone that they need to keep him informed of any address, phone number, or e-mail changes so he can send them in to Dallas. In the legislative report, John recommended that we look into the possibility of putting the helmet law modification on the election ballot, since we have a sitting governor that will veto anything passed in the legislature.

Dave reported that Rep. Gary Dusenbery got an award for all the support he has given us over the years. There was no Engineer Of Freedom awarded at the July C.C. meeting. Homecoming will have five bands this year. The product line needs new people to handle it. The general election is coming on Nov. 2nd, don't forget to vote. The F.E.W. seminar will be held on Nov. 13th. The mid-South Mile will be held Oct. 15th-17th.

The state is still working on getting enough money for a down payment on land for the Freedom Park. Mark Chapman is stepping down due to health reasons and we in local 12 wish him all the best. The May C.C. meetings will be moved to the first Sunday in May to avoid conflict with Mother's Day. Mark has donated a P.A. to the state. When signing up new members, find out which local they want to join, don't automatically put them in your local.

Lyndal welcomed everyone to the meeting. There will be a poker run held on Sept. 11th in Brookfield. Our good friend Monty hit a calf and went down and we donated \$100 towards his medical expenses. Mike Knox's bike took first place in the Glasgow Bike Show.

Jeff again thanked all of our F.C.C. workers and said we need to get more members to help next year. Joe Beckhold has offered to work with us on a one-day Spring Kickstart Party. We need to think up ideas and discuss them, we will talk about this more at the next meeting.

The safety tip was to watch out for combines and large machinery on the road now that harvest time is here. There was no old business. In new business, John brought up the possibility of holding some dinner rides for the local.

We adjourned at 8 pm and held two pot drawings (due to Smokey forgetting the pot in July). Philip Hontz's name was drawn first but he was not present. Gary Schaefer won the second pot. His half was \$53 and he donated \$33 back to the pot. Thanks, Gary!!!

Fellow enthusiasts of all shapes, sizes, ages, origins and/or planets, we come in peace.

Here we are. Safe and sound after our rousing, fun, fun, fun day with our Wonder Run. What a ride we had. Up and down all those hills. All the wonderful shaded trails. Ohhh and the games!!! Boy did Slider D out do himself this time. Especially the ping-pong game where we had one poor soul who ended up getting a minus 10! I am pretty sure he won the lowest point plaque but I will have to wait until the next meeting to see if I am aloud to print his name or if he would hurt me....

While diving for the ping-pong balls, Margaret, my 'lil'sis' twisted her knee and ended up being carried to my moo-mobile by three

handsome bikers of whom I did not get their names but the unsung heroes are thanked from the bottom of our hearts. She has to have some surgery now, but I am assured she will be fine.

We also have to thank the almighty for helping our main man and president of our local 13, Scott, after his little mishap. He was so lucky to figure out how to ride backwards on his bike through the mud like he did for such a long time and not sustaining more injuries than he did. We did see the black eyes and we know his back is doing a little bit better, but from now on "Back-up" will have to realize which way is which. (hee, hee)

We will be glad to see him back on two wheels soon though and we are sorry he had to miss riding in this wonder run. We all know he will come thru like he always has. Right, Back-up? (Oops, I said it again).

I hear we had two really good bands at Panhead Billy's. I also heard that Back-up enjoyed it, as did Slider D, and some of the others that will remain nameless for the moment.

For those who decided to do one of the other runs, we sure did miss you and the help you would have done for our annual Betty Adams Christmas gifts for our friends in need. But we will look forward to seeing you at our monthly meeting September 15th at 7:00 p.m. at the Moose.

Well, it won't be long before Halloween then Christmas, the parade, the toy run, the fun!!!!!! Don't miss it!!!!!!

As I always say, STAY SAFE, and Go in peace not in pieces!
Have a safe month, Ms. T. Tat. (Linda)

Hey everyone,

I know how much we're all looking forward so some "cooler" wind in our hair at last. I'm sure glad fall is almost here!

We want to thank everyone for all the help in our Annual Fall Motorcycle Show & Swap Meet. We couldn't do it without you! It was a great success. Thank you to everyone who participated as well, hope you had as much as we did! We love spending time together & showing off our bikes!

Now we're making plans for the Bikers, Blues & BBQ in Fayetteville AR. Sept. 29th - Oct. 3rd. Again this year we will be having a blast at the Greenland Campground. We want to invite everyone to come & join us, our own members & of course other locals too!

Oct. 5th is our B.S. in Rockaway, it will be at the Pizza Cellar, love their Pizza!

Oct. 10th We will be riding in the Stone County Toy Run. It will be leaving Branson West, Wal-Mart at 1 p.m. Make sure to come out & support it with us.

Oct. 18 is our business meeting at the Lone Star Steak House. Come & join us to do some thinking & enjoy their yummy food as well. Last meeting was fun & the service was great! Can't beat the company either!

We will be scheduling our Annual Trash Pick-up & Treasure Hunt. For those that haven't heard, our Highway is that curvy stretch of road on Hwy 160 just passed the turn off to Rockaway. Many folks come out & help clean up our piece of hwy & find donated treasure along the way. It's a fun way to get something done!

This is Lou wrapping up this month's news from Local 15! Hope to see you this month. "Ride Safe!"

Hi everyone! Hope you all have had a great summer and have put lots of miles on your bike! There has been quite a few fun-filled events over the summer and last but not least was our first L-24 event of the year - the Krap Run on the 17th! Thanks to everyone who attended to make it a huge success! Homecoming was a blast! A lot of you made it out, but for those of you that didn't, you really missed out this year! A lot of careful planning throughout the year really paid off! It was great to see so many L-24 members show this year (compared to our 6 last year.) Let's continue to show this togetherness for the rest of the year and the years to come!

Hello Everyone, Wow what a great riding season. Hope everyone had a great time at Buckhorn !

Our 3rd Annual Rodeo was a huge success. Ground was a little muddy, but we had great weather this year.

If you have not seen photos of this event please go to my Face

Book page and check them out along with the Red Neck Biker Golf pics.

If you are not already a friend on my Face Book, send me a friend request. I check it twice daily. Type into your Face Book search bar - Dale Covington Rascal

Winners @ the Rodeo:

Keg Roll - 1st place was "Scooter" 2nd place was "King Jake"

Weinie Bite - 1st place was "Newbie"/"Ratwinger Brown" 2nd place was "Twisted Thoughts" Brian & Dawn

(Our new event) Honey I'm Home - 1st place was "Hippy" 2nd Place was "Treetop"

Tennis Ball Pick Up - 1st place was "Twisted Thoughts" Brian & Dawn 2nd place was Missy & Herschel

Plank Ride - 1st place was "Shrek" 2nd place was "Hippie"

Slow Race - Were still waiting for them to finish ! No, but it does seem that things were getting a little hazy at this point. No one has any idea who won this race, but we would like to thank "G-No", "Ratwinger", Kenneth Brown and "Scooter" for their participation in this event.

If anyone remembers who won this race please let us know ! LOL

OK, on to upcoming events :

Sunday - October 3rd 31st Annual Rat Ride

Due to the rain, only 10 members were present for our Aug. meeting in St. Joseph at Jose Steak House. It was an informal meeting with discussions about Homecoming, Keosauqua, and our holiday party. It was decided among the members/officers present that we would try doing a Valentines party instead of the Christmas Party.

Sturgis: It was a safe and fun Sturgis trip. We had several "first" to mention. It was Diane Ashbaugh's first "long" ride and she did outstanding! She was a natural and seemed like she was a veteran on two wheels. We went thru Custer National Park that had several hairpin curves with traffic going both directions and little room for error and she managed them expertly. Good Job Diane!!

Another "first" was a father and son team. Pat Nulls' son and Local 26's youngest member Tucker Null also made the 1200+ mile trip with flying colors. Tucker road his dad's Shovelhead. Needless to say, Pat was very proud of his boy and I'm sure gave a big sigh of relief when they landed back home without any mishaps. Way to go Tucker!!

It was also Tuckers first visit to Sturgis and he got an eyeful (I won't go into detail of his "sight seeing", but it wasn't the beautiful wilderness that he enjoyed the most). A BIG thank-you to our support truck driver, Milt Sovereign. Thankfully, we didn't need to use the trailer for any disabled bikes, but it sure was nice to have a "convenient store on wheels" following us for a snack and/or drink whenever we needed it. Thanks Milt!

Another "first" was when Pat struck up a conversation with President of the Bandidos M.C. and was invited to visit them in Texas. Don't know if Pat will take him up on that invitation or not. (I think they were trying to recruit him).

Other thanks go to Ed Montgomery for leading our "pack" there

and back and Roy Brown for getting us to all the "Sturgis Stops" so we could get our Rally pins/patches and shirts, and....as always....being our official photographer.

2010 FORR Homecoming:

A thank-you in advance to Ed Montgomery, Roy Brown, and Jay Steeby for working at the Homecoming for our Local. We've had several members injured in the past month, so that will hurt our attendance as well.

Get well wishes go out to: Richard Hanson, Linda P., Gay and Rick Frampton, Lewis Rice, and Jenny Null. Hope you all heal up fast!

Happy Birthday to: Jim Bailey, Paul Palmer and Milt Sovereign. Thanks to everyone for making our Summer Season a safe and fun one!!

Once upon a midnight dream

We saw tits that made us cream

Around the pole the dancing quivered

On and on like the Missouri Rivered

Their breasts are round and perfect with

Nipples pointed toward the sky.

We were mesmerized- wondering why

The crowds stay around & could do nothing but stare

The least of our worries-are they real

Or are they under a doctor's care?

Hello Fellow Members and Happy October to you! Well its been a weird weathered summer huh? I am hoping big time that fall is fantastic

I know we are really looking forward to some group rides and hanging out with our budding buddies.

I was unable to attend our last monthly meeting so I don't know for sure what we spoke about except what has been passed on to me by those that did attend, so here goes we are looking for a place to have our Christmas party, so if have any ideas attend Octobers meeting or get a hold of Curtiss. We also need to know if we should have it catered or make it a bring a dish event your opinion matters so let us hear something.

In October we will get Nominees for our up coming elections to be held at the November meeting. So please plan on attending the October meeting if ya ain't there your vote don't count!

ATTENTION!!!! Our Meeting Place has changed!!! AMIGO'S In the Main street Plaza 1/4 mile west of Bumsteads!

Our Face Book Address is Local30nixa@yahoo.com please look us up for weekly rides and Local Info.
Don't Forget October Dues are DUE!!!!

Ben and I would like to thank all our St Charles and St Louis locals for sharing Tents and blankets with us as our Day ride to Buckhorn lasted until the next morning! It was fun and so unexpected. It was good seeing so many of our riding Buddies!!!!for local afar and our home local! thanks BIG TIME!!!

Ben and I will be hosting a ride to Under the Cliff the 2nd Saturday in October so go to our Local Facebook for updates and leaving times!

Well that's about all I have for this one

So until next month ... Live Well, Ride Safe and Enjoy!!!! PJ

Well this here is a broken record of sort's. Bear won the George Washington incentive pot aaaagain. Say who the HELL is drawing out the name here? But on a different note Larry T. won 46 George Washington's in Randy's Duck Pond Game.

At our August Watermelon poker run Michael Hutchings saw all 18 watermelon on the run to win the basket of goodies. And in the poker hand 1st place went to Ken Stephens, 2nd place went to Doug Weiss, and 3rd place went to Rodney Norman.

Well the 20 Anniversary Homecoming is in the books, if you went down on Wednesday or Thursday you officially got 7.5 inches of rain I heard. Hope you all had a blast down there.

Remember Octoberfest is the 1st, 2nd, and 3rd of October at the NEW location just south of Oak Grove, MO. off F Hiway.

Remember our October poker run and our Halloween party check the web site for more info, www.forrlocal33.com

And last but not least don't forget the F.E.W. Seminar in Jefferson City on November 13th this one day is full of seminar's, food, entertainment, and live and silent auctions. It's a freakin blast!

For the ones that didn't make it to Homecoming 2010. You missed one hell of a good time. The weather was almost perfect, just a little cool at night. I wonder if the members of FORR that didn't make it to HC, but went to another Biker party, had as good as a time as I had. I doubt it, as I was parting with my second family, not strangers in Kansas or whatever State they went to. I keep hearing that for some part of the State it's too far to ride down to Buckhorn for Homecoming. But these same people will ride to Little Sturgis or even Big Sturgis and not complain one little bit. But on the second shoe, I've heard these same people complain about FORR® not getting anything done. They just take their money to other States and forget about Missouri.

Local 35 had a great poker run on the 18th of September. Or I sure hope they did, as my Glass ball fell and broke.

Hey Local 35 you need to get in touch with Linda and let her know that your going to the FEW seminar. Time is running out and YOU will miss one hell of a learning experience and a great time. As usual the Local will pick up the cost, all you have to do is show up Saturday and stay over Sunday and attend the CC meeting. By attending the CC meeting your Motel bill will also be paid. Is any other Local going this far to advance FORR® for their members??

Hello everyone... Hope everyone manages to stay cool in this August heat. We didn't have a lot planned for this month. Hartbauer-McBride Ride, Mo. On the 22nd and the Missouri Hog Rally on the 27th to 29th. On the 14th of this month the majority of our members participated in a benefit for Deanna Elkins. We started the day with a short poker run that started out at Stout's Famous Fine Apparel and ended at The American Legion in Pacific Mo. It was a long, hot, and humid day. It was quite a turnout with BBQ, washer tournament, and horseshoes. The band I'm in played from 3 to 6:30 and Loose Change took the stage for the night. Other than that it was just plain hot....Talk later,
 Tex

Hello Ladies and Gents,

Its getting colder now, watch out for those wet leaves. I hope you are all doing well.

Our local had a get-together over the Labor Day weekend down at Caplinger Mills. We went canoeing on the river; we had a good catfish dinner at AmVets. The band 3rd Offense played awesome for us too, I even danced to "Pink Floyd." Our president, Bulldog, was not dancing however, he had a slow moving weekend due to a work injury. We are ready for him to be all okay, and so is he.

By the time you read this, Mike Horner's end of summer party will have passed. Bulldog and family got the bon fire built up about 17 feet tall, 24 by 24 feet wide. Mike and Mo provided Oklahoma Joe's BBQ for everyone. I hope we saw you there. I'll tell you about the anniversary and festivity details later.

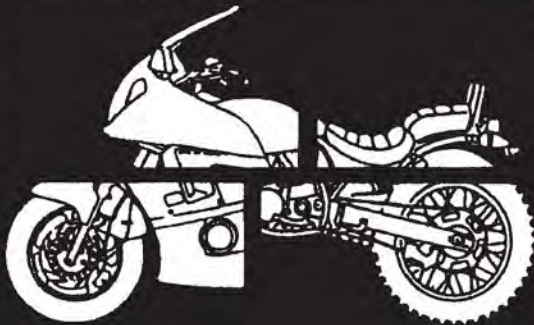

Local 46 is a family oriented local. We have lots of fun, and would love to have you join us in our activities and festivities.

Geared For Women

But It Doesn't Mean That Men Can't Learn Something Too

Bike Talk Part I: Handlebars & Controls

This is the first of five articles on "bike talk" for the ladies. If you ride you're visually familiar with the many wires, lines and levers that create your motorcycle, but perhaps you lack the vocabulary and technical knowledge to dish about them at bike night or at your local bike shop. Having a foundational knowledge of bike parts also helps beyond casual conversation and can help you identify potential problems and feel more comfortable on your motorcycle. Please read to get a general sense of components as each motorcycle varies in design.

To begin we will discuss the components that are in your face while you're riding, your handlebars. Sportbikes normally have clip-ons for bars, which are literally bars clipped on to the sides of your forks and cruisers normally have a one-piece handlebar attached to the top of your forks. Your grips are the padded location for your hands. There are various types of grips, with different degrees of stickiness, padding and longevity. Your right hand side grip covers your throttle housing, a plastic tube situated on your bar with throttle cable running from it to your motor, rotating the tube back provides the motor with fuel to propel you forward.

Your right hand also has access to your front brake master. You can see your front brake master is attached to brake lines running to your calipers, which we will discuss in the braking Bike Talk article. Brake fluid fills both the master and the lines and as you squeeze your lever the fluid moves through the lines your brake pads are forced shut causing you to come to a stop. Your right handle bar will also host your kill switch assembly to prime and turn on your motorcycle.

Your bars will be attached in some fashion to your forks, providing suspension and a home for your front tire. The forks of your motorcycle will be clamped together with an upper and lower triple tree, placed respectively up and below the location where your frame attaches to your front end. Near your triple trees you will see two cups of fluid called brake fluid reservoirs. You can check the amount of fluid and also cleanliness of your fluid by peering at the side of these reservoirs.

Moving to your left hand you'll find your grip directly attached to your bar and your clutch lever just forward of your grip. Your clutch lever is attached to the clutch cable which runs around the side of your motorcycle and is linked to your clutch. Normally clutches can be adjusted for softness and degree at which your clutch releases. Other controls for your turn signals and/or headlights are also located on the right side. Mirrors and gauges will also be present on most stock motorcycles.

So go out to your bike and find these parts on your motorcycle: grips, throttle, front brake master, triple tree and clutch lever. Follow the cables and lines from the brake master and clutch to get a feel for what you're orchestrating when you squeeze the levers.

Bike Talk Part II: Tires & Wheels

Tires, wheels: both comprehensible parts of your bike, with an obvious role but upon closer look you'll find your wheels adorned with all sorts of disks, housings and lines running each and every way. While it may look like a busy mess, each part has a specific role, which is truly easy to understand. When riding you rely on your wheels and related components for some very important things, moving forward, turning and stopping! I feel like it's best to understand these components you trust your life with, because it never hurts to give your bike an educated one-over before you hit the road.

First thing to notice is the difference between tire and wheel. Tires are the actual rubber...well, TIRE and the wheels are the metal frame the tires attached to. Next time you get your tires changed, ask to watch, it's pretty interesting. Most road motorcycle have tubeless tires and the air is held in the wheel with help from the tire "bead." The bead is basically the edge of the tire that sits on the wheel, you'll hear people talking about "breaking the bead" which is necessary to remove a tire from the wheel. Breaking the bead really just means applying enough pressure to dislodge the edge of the tire from the groove it's sitting in on the wheel.

Your wheels are attached to your motorcycle on the front by your forks and front axle and rear with the swing-arm and rear axle. Also attached to the wheels are metal discs called rotors. The rotors hold the calipers, which house your brake pads, which are attached to your brake lines, running to your brake masters. So you can see the chain of events are as follows: squeeze your brake master, fluid in your brake lines cause pistons in your calipers to close your brake pads which clamp down on your rotors, effectively slowing the rotation of your wheel. Keep an eye on these parts, make sure your rotors stay clean, there's no brake fluid on anything and that all your bolts are tight.

Your rear wheel is home to your sprocket/belt drive or shaft drive. Whatever style your motorcycle this system transfers energy from the motor, to the rear wheel to propel your motorcycle forward. Depending on your motorcycle this system can require adjustments, lubing or replacing a chain, belt or sprocket every so often. Ask your mechanic to show you how much play your chain should have so you can add that to your pre-ride checklist that keeps your bike top-notch. Your motorcycle will also have a front fender and sometimes a rear fender.

So every so often, look down and give your tires and wheels some attention. Your tires should have adequate tread, watch out for nails, bolts and dry rot. Check the pressure recommendation for your bike and tires and keep your tires aired up for safety and so they last longer. Make sure the bolts holding your rotors and calipers on are tight and watch for brake fluid oozing out.

Since engines vary so widely, we will define some typical terms to allow you to get a bit more familiar with the jargon associated with motorcycle engines. First thing to know is the engine displacement is the total volume of air/fuel mixture an engine can draw in one complete engine cycle. This displacement is the size of your motorcycle, motorcycles size can range from less the 50 cc to 6,000 cc. "CC" stands for cubic centimeters, the form of measurement used to define your engine displacement.

Another thing to think about is how your engine is cooled which can be one of three ways; liquid, air or oil cooled. Make sure you know how your engine is cooled because if its liquid or oil, you don't want to run low! Other components on or around your engine, but not related to the actual conversion of gas to energy are the clutch and transmission. The clutch disengages the clutch plates to allow for shifting of the gears. The transmission houses your gears, make sure you know how many gears total your motorcycle has. If you want to learn more about your specific motorcycle's engine, you should! It's interesting and empowering to understanding how gas powers you through turns and down the highway.

A close-up photograph of a motorcycle's rear wheel and tire. The tire is black with a visible tread pattern. The wheel is silver or chrome, and the brake disc is visible. The motorcycle is parked on a light-colored, textured surface.

First method is a disc brake system. Disc brakes use a disc, called a rotor, which is made of cast iron to slow and stop a motorcycle. The rotor, which is attached to your wheel slows by pressure from your brake calipers. The brake calipers are the assembly that house your brake pads and pistons. The pistons are responsible for pressing your brake pads tightly onto your rotors, which slows the wheel. So you can imagine the pistons, pressing brake pads on either side of your rotors creates a great deal of friction and heat. If you can check your brake pads every so often,

If you look at your brakes and don't see calipers and a rotor you could have drum brakes on your motorcycle. A drum brake uses a similar method as disc brakes, converting motion to heat and slow the motorcycle with friction, but has a slightly differently technology. The system has a drum (circular covered assembly) and the friction is caused by shoes or pads pressing on the inner –or more rarely, outer surface. With drum brakes you may hear that they are “self-applying” this means the rotation of the drum causes one or both of the pads to naturally press onto the friction surface, which means less work for you.

The major things to check is your pads, make sure you still have meat on them. Make sure no fluids are leaking and that your fluid levels are correct and your fluid is a healthy color—if it starts looking dingy and dark you may need new fluids. Check your brakes line every so often, they should be away from your wheels or locations where they might be pinched, make sure there are no rips or crushed areas.

AMA seeks suspension of grant program that targets motorcyclists with checkpoints NHTSA offers grant to fund motorcycle-only checkpoints

Contact Administrator Strickland immediately

The National Highway Traffic Safety Administration (NHTSA) is offering federal funds that would expand the highly criticized practice of creating motorcycle-only checkpoints by law enforcement agencies.

Initially begun in New York State, the process involves setting-up checkpoints where only motorcycles are pulled over. Law enforcement officers then check for U.S. DOT-compliant helmets, legal exhaust systems, and compliance with licensing, registration and inspection regulations. The NHTSA program would also collect information on high-motorcycle-crash-incident areas and citations would be issued for any violations discovered.

The American Motorcyclist Association (AMA) has questioned the potential discriminatory and legal nature of this program and submitted a list of questions for clarification to the New York State Police. To date, New York authorities have not responded. The AMA has also sent a letter to Administrator Strickland urging him to suspend the grant program until questions have been addressed. To view AMA's letter, [click here](#).

While law enforcement officials in New York defend the program as a safety measure to decrease motorcycle crashes, injuries and fatalities, there is no proof of its effectiveness. The practice has drawn the ire of motorcyclists both locally and nationally.

NHTSA is now seeking up to five other law enforcement agencies to participate in this practice and is offering \$350,000 in federal funding.

The AMA believes public funding would better serve motorcyclists by applying it to the national motorcycle crash causation study that is currently underway. The primary source of motorcycle safety is in motorcycle crash prevention and NHTSA should focus on decreasing the likelihood of crashes in the first place. This is a sentiment supported by Congressman Jim Sensenbrenner (R-WI) and many of his colleagues in Congress through recently introduced H. Res. 1498. To urge your Representative to support this resolution, [click here](#). The methods used in New York State remain highly suspect and no public money should be applied to promoting such a program without addressing questions from the motorcycling community.

Specifically, how do motorcycle-only safety checkpoints (MOSCs) increase the safety of motorcyclists? Where do the selected states draw their authority to conduct MOSCs? Will "probable cause" be required to stop a motorcycle under the terms of this grant program? If so, what will constitute "probable cause?" What types of infractions were recorded by New York law enforcement officials at these checkpoints? And, what criteria will be used to determine if the MOSCs are successful?

The AMA urges all riders to contact Administrator Strickland and request the grant offer be suspended until these questions have been addressed. Follow the "Take Action" option to send a pre-written e-mail directly to Administrator Strickland demanding no federal dollars be used to expand programs that discriminate against motorcyclists.

The Mystery of Left Side Tire Wear Explained

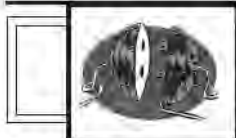

Written by Tim Kessel
allaboutbikes.com

Did you know that virtually every motorcycle tire will wear more rapidly on the left side than the right? So what's the cause? The rotation of the earth? Strange motorcycle voodoo? Well, no. There are actually two distinct factors that cause this phenomenon.

The first reason for accelerated left side tire wear is the nature of our roads. Virtually every road in America is crowned for water runoff. A road needs to shed water to the sides for safe driving in wet conditions. The severity of the crown varies widely by road type and region, but you are almost always riding on the side of an asphalt hill. Since we drive on the right side of the road, the left sides of our tires carry more of the traction burden.

The second reason for increased left-side tire wear is also a result of driving on the right side of the road. Every normal left turn (to a right-side rider) is wider than the corresponding right turn. Since left turns are wider, most riders carry substantially more speed into them. With increased cornering speed comes increased side tread wear. The slower pace of the tighter right turns creates less wear.

So there you have it - there are tangible reasons as to why you reach the tread-wear indicator faster on the left side of your tires, and it has nothing to do with the rotation of the earth!

Meeting of the Minds 2010

Pre-registration deadline for 2010 Meeting of the Minds is rapidly approaching. The final day to receive the discounted registration fee will be August 22. By registering prior to that date you will save ten dollars on your registration; \$60.00 for MRF members, \$70.00 for non-MRF members. You can register on-line or by calling the MRF office at 202-546-0983.

August 22 is also the last day to make hotel reservations and receive our special rate of \$109.00 night. After that date, not only will the room rate go up but room availability is not guaranteed. But I wouldn't even wait that long. We have almost filled all of our rooms, so don't hesitate, get that room booked.

ABATE of IL will be the host for this year's event which will be held in Peoria, IL. September 22-26. The MRF has planned some great workshops and general sessions for this year's Conference. The agenda can be found on the MRF website, www.mrf.org. Among the most notable offerings will be Slider Gilmore doing his presentation titled "Tar Snakes and other Riding Issues". We always walk away from a Slider presentation entertained and more importantly, educated.

In addition to Slider, we have several new breakout sessions. Matt Danielson from will be offering a workshop on "Your Rights During a Traffic Stop". Eric Hampton and Cindy Hodges will attempt to bring some of us "old timers" up to speed in a workshop devoted to Social Networking. There will be a session on the history of rights put together by Jessie McDugal and John Pierce. And that is just a small sampling of what we will be offering this September.

We do look forward to seeing you in Peoria. Remember to take advantage of the discounted registration fee and get your registration in no later than August 22.

MEMBER PROFILE

Do you know a member of FORR® that has been a mentor and you would like other people to know about them?

Is there a member out there that you think other people would like knowing about?

If so do a write up about them (1/2 page max) and send in a picture for a member profile to be in the Freedom Press.

I'm counting on all of you as I don't know "everybody" in this organization.

REINTRODUCING THE “ENGINEER OF FREEDOM” AWARD

How many FORR® members do you know the really exemplify the spirit of freedom? The member who has belonged for so many years, no one can keep track. The member who, when the call went out for a work session or a shift at an event, has always been there. The member, who has held every office in a Local and has been in one or the other as long as anyone can remember or the member who has jumped in there and helped to spark a Local to success, seemingly overnight. We all know these members, we see them every time there's a Local or CC meeting, or we go to an event and it's their smiling face that greets us and signs us in. And now there's a way to recognize those special members who have made up the heart and soul of Freedom of Road Riders®, the “Engineer of Freedom” Award.

Q. Who may receive the “Engineer of Freedom” award?

A. Any member in good standing of Freedom of Road Riders®.

Q. How can a member be nominated for the “Engineer of Freedom” award?

A. Any member or Local may nominate a member for this award. Simply write a letter to the Central Committee Cabinet of FORR® outlining the contributions of the nominee to the cause of freedom and mail it or e-mail to the FORR Corporate Secretary, Kathy Garver, PO Box 308, Oak Grove, MO 64075-0308 or secretary@forr.net

Q. How are nominees selected as an “Engineer of Freedom”?

A. The FORR® CC Cabinet will review the nominations at the officer's meeting the night before each Central Committee meeting. Only the contributions of the nominee will be considered; the name will not be divulged to any officer besides the Corporate Secretary. The recipient(s) will be announced at the CC meeting the day following their selection. Nominations for those who are not selected will be reviewed again at the next meeting.

Q. What does the recipient get for being selected as an “Engineer of Freedom”?

A. Recipients will receive a red, white and blue “Engineer of Freedom” patch (which will be one of the rarest patches around FORR®) and their names will be listed on the roll of “Engineers” maintained by the Central Committee and published in the Freedom Press.

Engineers will serve FORR® by passing on an example of the dedication that has led FORR® to the triumphs of the last 30 years. We owe it to those members (you know who they are!) who have helped to make this the biggest and best motorcyclist rights organization in Missouri, and one of the most successful in the nation. So, think about the special people that YOU know, and let's start nominating those “Engineers” who have helped to drive this Freedom Train.

Freedom of Road Riders®, (FORR®) is a not-for-profit organization dedicated to promoting safety, rider education, brotherhood, and freedom for all motorcyclists. FORR® membership is made up of motorcyclists from all walks of life, who ride all types of motorcycles and with all sorts of interests. Whether your interests center around legislative activities, motorcycle shows, or motorcycle rallies, FORR® has something to offer to you. You could belong to one of the largest motorcycling related organizations in the State of Missouri, with Local affiliates throughout the State. FORR® is different from most motorcycle organizations in that persons who ride ANY motorcycle or who support our freedom to ride without riding themselves can join. So regardless of whether you ride a Honda or Harley, a moped, dirt bike or an automobile, if you love motorcycling or would like to support the right to ride, you belong in Freedom of Road Riders.
